Professional Summary

Aspiring Salesforce Developer with expertise in HTML, CSS, JavaScript, and React, specializing in responsive web development, API integration, and debugging. Passionate about leveraging frontend engineering skills to build scalable Salesforce CRM solutions that solve business challenges. Quick learner with a strong analytical mindset, eager to contribute to growth-driven teams by designing efficient, user-centric systems.

Education

Masai School, Bengaluru Sep 2024 - Feb 2025
Software Development

Anuradha Engineering College, Chikhli Aug 2020 - June 2024
B.E. Computer Science and Engineering *Current CGPA: 6.65/10*

Technical Skills

Languages and Technologies: HTML, CSS, JavaScript

Frameworks and Libraries: React, React Router, Chakra UI

Tools and Platforms: Git/GitHub, VS Code, Firebase, Netlify

Soft Skills: Time Management, Effective Communication, Attention to Detail, Adaptability, Problem-Solving

Projects

Kcal calculator | *React, HTML & JSX, CSS & Styling, JavaScript ES6+, React Router, Git* Jan. 2025

- Deployed the application on **Netlify**: https://calculatecalorie.netlify.app/
- Built a calorie-tracking app with QR code scanning to fetch dish details and automatically calculate calorie intake.
- Integrated **Firebase** for real-time calorie data retrieval and implemented **CRUD operations** for dish inventory management.
- Designed an intuitive UI for QR scanning, modifying ingredients, and viewing real-time calorie and nutritional updates.
- Utilized React Hooks and state management for smooth user interactions and data consistency.

Employee Management System | *React, Redux, Tailwind CSS, Firebase, JavaScript, React Router* Feb. 2025

- Deployed the application on **Netlify**: https://empmanagersys.netlify.app/
- Developed a web-based Employee Management System to streamline HR processes.
- Integrated Firebase for data storage, and real-time updates.
- Designed an interactive UI with React and Tailwind CSS for easy navigation and data visualization.
- Implemented CRUD operations for employee records, ensuring smooth workflow management.

Expense Tracker | *React, Redux, Chakra UI, Firebase, JavaScript ES6+, React Router, Git* Feb. 2025

- Deployed the application on **Netlify**: https://ephemeral-haupia-9eca4b.netlify.app/
- Developed a budget-tracking app for tracking income and expenses, categorizing transactions, and monitoring spending trends.
- Integrated Firebase Realtime Database for secure transaction storage and real-time updates.
- Implemented Redux for state management, ensuring seamless UI interactions and efficient data flow.
- Designed a responsive UI using Chakra UI with dark mode support and interactive charts.

Certifications

Hackathon Participant
Masai School 2024 Contributed to a team project, learned rapid prototyping and collaborative coding techniques.

Construct Week Certification
Masai School 2024 Successfully built and deployed a full-stack application within a constrained timeline.
